ABOUT ME

I'm a computer engineering student focused on web development. During my internship, I worked on web solutions for health insurance companies. Later, as part of a 3-month university project, I joined the front-end team at Empresa Comeia, where I improved my skills in development and Agile methodologies. While I have strong back-end experience, I am currently focusing on sharpening my front-end skills through personal projects. I'm always eager to learn new technologies and face challenges to grow professionally.

WORK EXPERIENCES

Intern - Full Stack - Leve Tecnologia | 2020 - 2021

- Worked on the admin out-of-box features, creating objects, fields, layouts, permissions, and communities.
- Developed triggers and batch processes to improve system functionality.
- Worked on web development with a focus on backend, handling the integration of web applications with Salesforce.

University Project Collaborator - Empresa Comeia | 2023 (3 months)

- Contributed to defining business processes and architectural design during meetings.
- Developed new user interfaces and refined existing ones to align with project requirements.

SKILLS

- **Front-end:** React.js, Next.js, Tailwind CSS
- **Back-end:** Node.js (Express.js), PHP (CodeIgniter), Java (Spring Boot)
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Testing:** Jest
- **Miscellaneous:** TypeScript, Scrum

LANGUAGES

- Portuguese (Native)
- English (Advanced)
- Spanish (Advanced)

EDUCATION

Universidade de Pernambuco - POLI

Bachelor's Degree in Computer Engineering

August 2018 - 2025

COURSES

- **b7web.com.br**
  - NodeJS and ReactJS Fundamentals (60h)
  - HTML and CSS (30h)
- **Udemy**
  - Java and SpringBoot (54,5h)
